**Heat and humidity, how stressful!**

Environmental conditions such as heat and humidity are precisely the main external sources of stress for hair. Climate fluctuations strongly affect how our hair looks and does not often make us look just like we wish we did.

**Climate, Proof: a technology that does not fear the climate.**

**CLIMATE-PROOF** is the Semi di Lino active ingredient, able to keep the optimal level of hydration and to protect the hair as climatic conditions change, depending on humidity and temperature.

**7-day** non-stop hydration\*  
**72-hour** frizz control even at 98% humidity\*  
**Silky Feel.** Natural Movement.

\*Instrumental tests performed on hair treated with the Semi di Lino Volume service line

Semi di Lino Volume is a treatment line specifically developed to give density to fine, weighted hair, hydrating it and preventing moisture and atmospheric agents from undermining its natural beauty.

Thanks to **Volume Boost Complex**, a biocompatible polymer that helps restructure hair fibre from the inside, thin hair acquires more volume increasing their diameter without losing lightness and softness. **More lasting volume.**

# Diagnosis

The Semi Di Lino Diagnosis is a complete and highly professional process where **the scalp and hair are evaluated** to identify the different needs. This allows the client to receive a completely personalized beauty regimen **to achieve the desired look**.

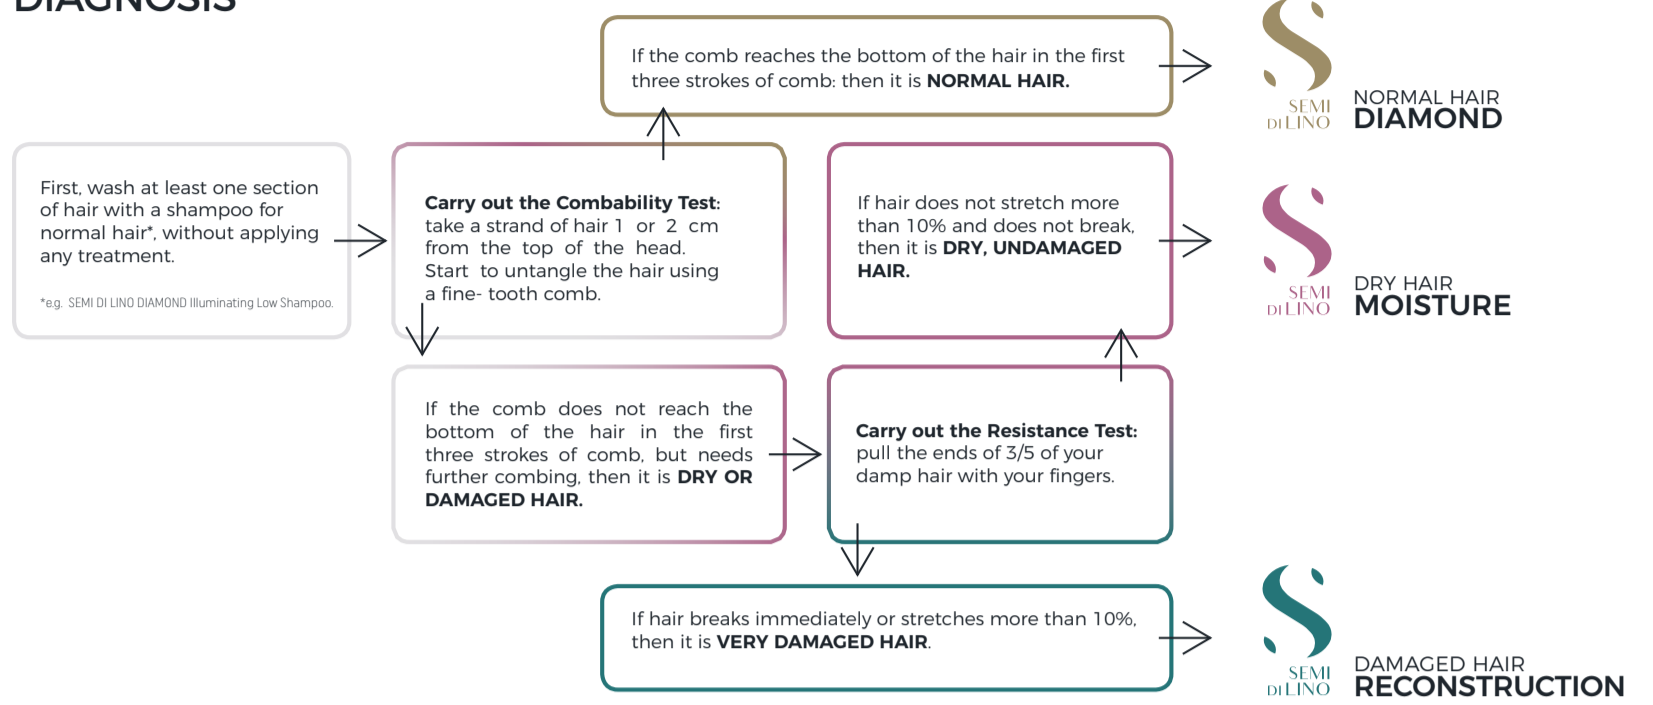

## DESIRED LOOK

## SCALP DIAGNOSIS

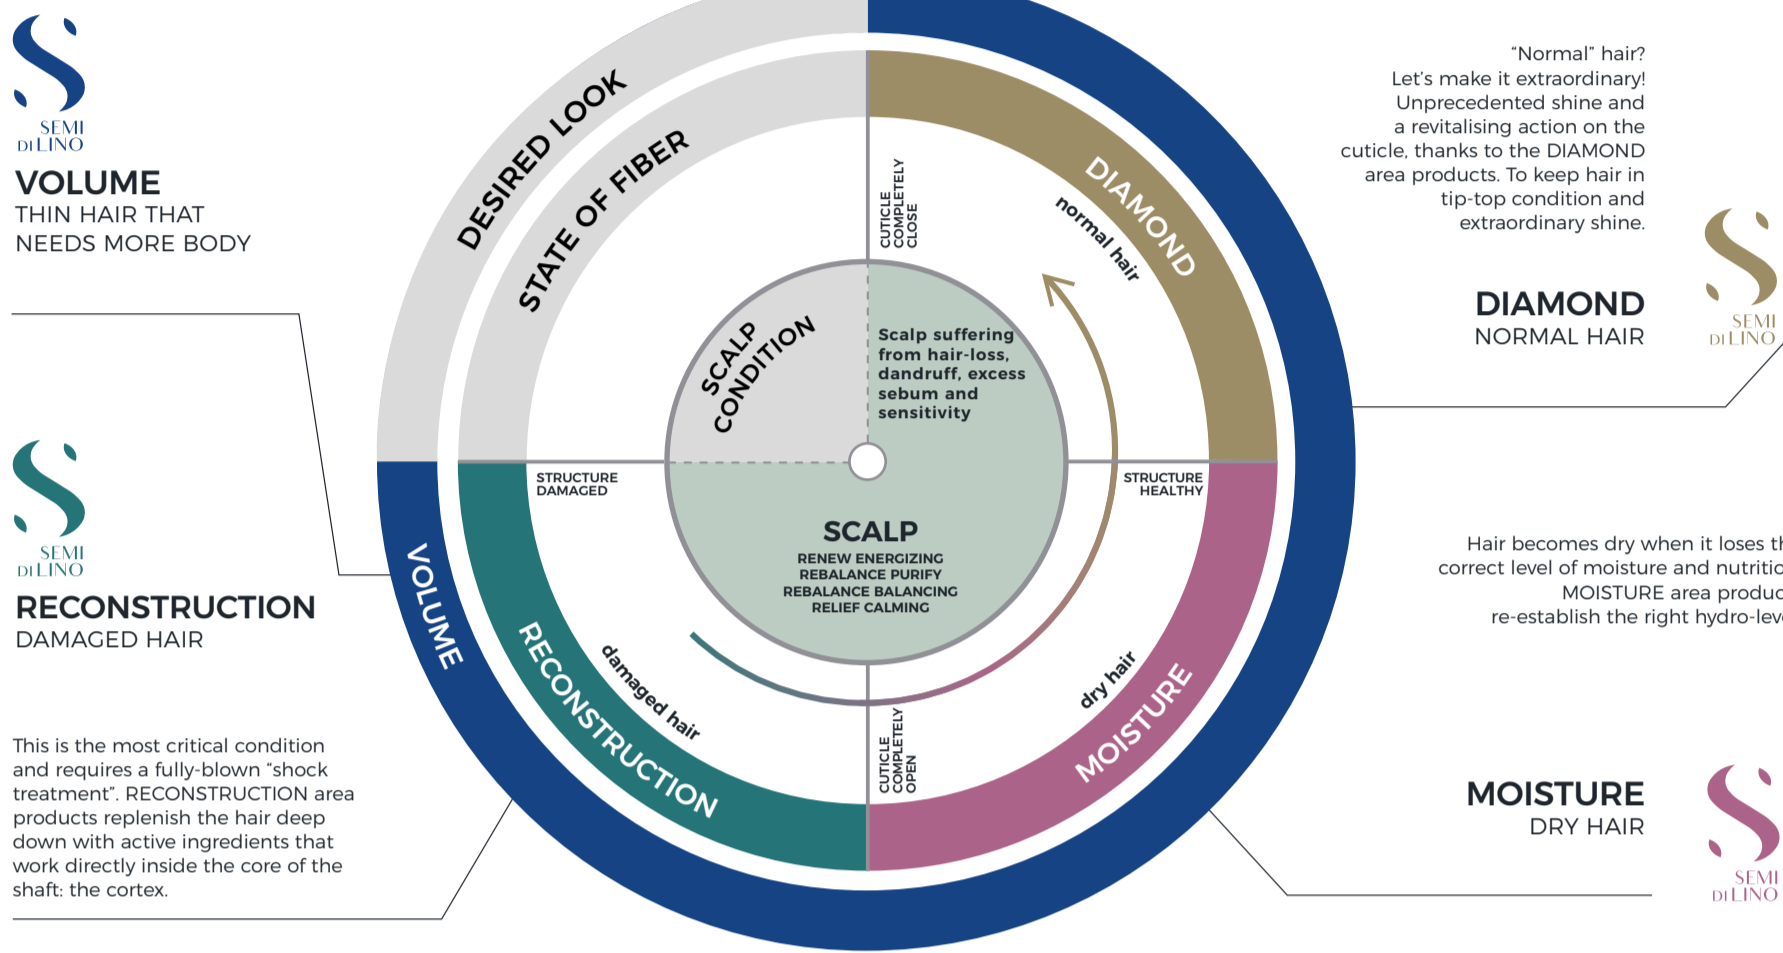

## FIBER DIAGNOSIS

# The treatment paths

The result of the Diagnosis allows you to determine the specific services needed for a personalized regime to **restore the scalp and hair fiber to its optimal state and to reach the desired look**.

# 1 method, 3 step

The Semi di Lino method for beautiful hair from the first treatment. The hair, free from the patina of pollution, reveals its authentic beauty.

### DETOX

**Hair preparation** › Mud that purifies, scrub that exfoliates.  
**Objective** › To return the hair to its natural beauty and prepare it to better receive the subsequent treatments.  
**Tool** › The mud rids the hair and scalp of toxins and pollutants; the scrub removes traces of impurities, dead cells and product residue.

1

ALL HAIR TYPES  
**SUBLIME**  
Mud

SCALP WITH DANDRUFF  
**SCALP**  
Scrub

### CARE

**Each to their own** › Beauty at your fingertips with the right product.  
**Objective** › Restore and enhance natural hair beauty.  
**Tool** › At each session, the stylist evaluates the condition of the scalp and hair and, considering the desired look, builds a personalized cleansing and treatment plan.

2

SCALP SUFFERING FROM HAIR-LOSS,  
DANDRUFF, EXCESS SEBUM AND SENSITIVITY

**RECONSTRUCTION**

ALL HAIR TYPES  
**SUBLIME**

FINE HAIR  
**VOLUME**

### GLOSS

**Shine appeal** › Enhances the result with new-generation of Cristalli Liquidi.  
**Objective** › To maintain the beauty of the hair over time and to magnify its radiance.  
**Tool** › Three different Cristalli Liquidi, to be chosen according to the hair type, for spectacular and long-lasting results.
